

COLONIAL GARDENS

The site plan for Colonial Gardens is a semi-circular grid of plots. The plots are numbered sequentially from 1 to 357, starting from the bottom left and moving towards the top right. The grid is approximately 12 plots wide and 30 plots deep. Several plots are shaded with a stippled pattern, indicating specific areas of interest or development. There are also several circular symbols, some of which appear to be trees or specific markers. The overall layout is organized and systematic, typical of a planned residential or institutional site.
